- WordPress
- Figma
- Git / GitHub
- Google Maps APIs

Design & UX

- Design Systems
- Component Libraries
- WCAG 2.1 / AODA
- Responsive Design
- UX / UI

AI-Assisted Dev

- Claude Code
- Cursor
- ChatGPT
- GitHub Copilot

PROFILE

Drupal Software Developer with 17+ years of experience designing, developing, and maintaining enterprise Drupal websites and content platforms, including 14 years specializing in Drupal development. Experienced building scalable, component-based solutions using Drupal, Twig, React, JavaScript, HTML, CSS/SCSS, and modern front-end development practices. Passionate about clean, maintainable code, accessibility, performance optimization, and collaborating with cross-functional teams to deliver high-quality digital experiences. Leverages AI-powered development tools including ChatGPT, Claude, Cursor, and GitHub Copilot to streamline workflows, improve code quality, and accelerate delivery.

EXPERIENCE

2021 Web Services Dev Lead

University of Toronto

- Led front-end development of the redesigned Admissions & Student Recruitment website, translating Figma UX/UI designs into clean, performant, production-ready code.
- Implemented Single Directory Components (SDCs) within the Drupal theme to establish a reusable component library, ensuring consistency between Atomic Design patterns in Figma and front-end implementation.
- Mentored developers; led migration of 80+ websites from Drupal 7 to Drupal 9 and ongoing Drupal 11 upgrades.
- Applied AI-assisted workflows to accelerate prototyping, troubleshooting, and code generation.

Present

2012 Web Designer / Developer

University of Toronto

- Developed and maintained custom Drupal and WordPress websites for academic and administrative departments.
- Built responsive, WCAG / AODA-compliant interfaces using HTML, SCSS, JavaScript, PHP, and Twig.
- Created reusable design patterns and front-end frameworks to improve maintainability.
- Partnered with UTSC Marketing and Communications to design and build interactive digital experiences that elevated campus storytelling and highlighted student, faculty, and community achievements.

2021

EDUCATION

University of Toronto
BA, History & New Media

Centennial College
Certificate, New Media Design

Acquia
Drupal Training

RECOGNITION

- Two-time presenter, U of T TechKnowFile Conference
- Graduate, Rose Patten Mentoring Program
- 2026 Recipient of the Principal’s Inclusive Excellence Services Award

EXPERIENCE (CONTINUED)

2008 Web Designer

University of Toronto

- Designed and developed websites for academic and administrative units across the university.
- Produced visual designs and interfaces focused on usability, accessibility, and content management.
- Partnered with website owners to gather business and user requirements, translating design concepts and brand vision into responsive, user-centered web interfaces that balanced aesthetics, usability, and technical feasibility.

2012

2007 Web Developer

Line of Control Web Project — Prof. Ken McDonald · Freelance Contract

- Developed a new graphic interface for the Line of Control website; produced large-scale print graphics and liaised regularly with stakeholders.
- Conducted project timeline, strategy, and flow chart.
- Integrated a JavaScript/PHP forum and Exhibit template.

2008

SELECTED PROJECTS

Admissions & Student Recruitment

University of Toronto ·
utsc.utoronto.ca/admissions

- Led front-end of a full redesign from concept to launch.
- Built reusable components with a focus on accessibility.

County Vineyards

React Application ·
countyvineyards.ca

- Designed and developed a winery discovery platform for Prince Edward County.
- Built search, filtering, favourites & interactive mapping with React and Google Maps APIs.

Drupal Modernization Initiative University of Toronto — 80+ websites · utsc.utoronto.ca

- Led migration of 80+ institutional websites from Drupal 7 to Drupal 9, establishing standards, workflows, and reusable components adopted across the university.
